

ELECTRONIC PRESSURE CONTROLLER

FPV & FPH SERIES

FEATURES

- Sets free from operating the pump.
- Ensures uninterrupted water supply with adequate pressure.
- Saves electricity & time.
- Protects pump from dry running & back flow of water.
- FPV models are supplied with inbuilt pressure gauge.
- Colourful LED's to indicate various functions.
- Designed for easy installation.

IDENTIFICATION CODE

F	FIPS
P	Pressure control
V/H	Vertical (V) / Horizontal (H)
3	Upto 3,0 bar
A / N / S Optional	Adjustable / New Model / 60Hz

TECHNICAL DATA

Ambient Temperature	Maximum + 60 C
Liquid Temperature	Maximum + 60 C
Cut in Pressure	FPH 15, FPV 15 : 1,5 bar FPH22 : 2,2 bar, FPV 3A (1,5 to 3,0 bar)
System Pressure	Maximum 10 bar
Supply voltage	220 / 240 V
Frequency	50 / 60 Hz
Maximum Current	10 Amps
Enclosure Class	IP 65

FPV-15
FPV-3A

FPV-15N

FPH-15
FPH-22

APPLICATION

It can be used for all kinds of small domestic pumps installed in apartments, houses, villas, gardens etc.,
